

YOYO

Halla

Huhei!

JAUDA

EMOJI 🤪

A bit more text which stretches over
several linebreaks – so that this can be
tested as well, might be useful, might not.
How many coffees can you drink during
one day? Maybe one more?

DOWN HERE

Text that goes from one page to the next,
is it best if this is connected to the next
page, or if it is separated in two pages?
Luckily, if needed, we can check if the last
textItem has EOL, and deduce if it

contiueess on the next page or not – or
maybe not if the text is really malformed
or something, I have no idea... Hopefully
this case won't happen at all...

What will jhappen here anyways? This is a vertical
textbox with several lines of text....

And what will happen here? This is a
textbox
